#### LED Position indicators -SUS/CSL-Series

**Easy to mount**, with a **rugged design** and a **high brilliancy** especially in a darker environment the **SUS/CSL LED position indicators** are the **perfect solution** to show the switching status of your electrical installation.

They are available in **six front sizes** (round or square cap), **different colour combinations** and **symbols (Interruption, ground, circle)**

SUS/CSL position indicators can be supplied with different power supplies and provide also the possibility to **surpress the inductive voltage up to 120V**.

You can find further information on this product or the delivery program of Weigel Meßgeräte GmbH on our homepage [www.weigel-messgeraete.de](http://www.weigel-messgeraete.de)

We would be pleased to make you an individual offer for you which can be requested from [vertrieb@weigel-messgeraete.de](mailto:vertrieb@weigel-messgeraete.de).
