Weigel Solar Displays

Weigel Solar Displays are the **perfect way to visualize** your photovoltaic system for your customers or visitors.

These devices are available with **LED-Display, reflektiv or backlit LCD-Displays** for any indoor or outdoor application. Possible connections are RS-485, RS232, pulse or analogue input as well as ethernet or wireless LAN.

The Weigel Solar Displays also offer you the possibility to **add** your **individual design**.

You can find further information of this product or the delivery program of Weigel Meßgeräte GmbH on our homepage www.weigel-messgeraete.de

We would be pleased to create an individual offer for you which can be requested on vertrieb@weigel-messgeraete.de.
